INTRODUCTION. C-section is a lifesaving practice that is needed in 10 to 15% of births to avoid risking the life of mother or child (1, 2). However, C-section delivery is often overused, with some regions of the world reaching 43% of births (3). Concomitantly with the increase in C-section, obesity (4-6) and immune-related diseases [type 1 diabetes (7, 8), allergies (3, 9), and celiac disease ...

1. Introduction. Convolutional Neural Network (CNN) is a well-known deep learning architecture inspired by the natural visual perception mechanism of the living creatures.

Recent advances in convolutional neural networks

Movement is a vivid discovery, a fundamental and explicit teaching in which the return to basics takes on a whole new meaning. In it, author Gray Cook crosses the lines between rehabilitation, conditioning and fitness, providing a clear model and a common language under which fitness and rehabilitation professionals can work together.

Movement: Functional Movement Systems: Screening

Leadership is both a research area and a practical skill encompassing the ability of an individual or organization to "lead" or guide other individuals, teams, or entire organizations. Specialist literature debates various viewpoints, contrasting Eastern and Western approaches to leadership, and also (within the West) United States versus European approaches.
