Welding Procedures, Welder Approvals and Welding Procedure Specifications explained. European Standards An introduction to European Welding Standards. (427Kb pdf File)

**Welding Qualifications**

A Welding Procedure Specification (WPS) is the formal written document describing welding procedures, which provides direction to the welder or welding operators for making sound and quality production welds as per the code requirements . The purpose of the document is to guide welders to the accepted procedures so that repeatable and trusted welding techniques are used.

**Welding Procedure Specification - Wikipedia**

STAKING GENERAL As with ultrasonic welding and inserting, ultrasonic staking employs the same principles of creating localized heat through the application of high-frequency vibrations. Many staking

### **STUDY MATERIAL FOR THE CERTIFICATE OF - New York City**

Electron-beam welding (EBW) is a fusion welding process in which a beam of high-velocity electrons is applied to two materials to be joined. The workpieces melt and flow together as the kinetic energy of the electrons is transformed into heat upon impact. EBW is often performed under vacuum conditions to prevent dissipation of the electron beam.
