Answers - The Most Trusted Place for Answering Life's

A riddle is a statement or question or phrase having a double or veiled meaning, put forth as a puzzle to be solved. Riddles are of two types: enigmas, which are problems generally expressed in metaphorical or allegorical language that require ingenuity and careful thinking for their solution, and conundra, which are questions relying for their effects on punning in either the question or the ...

maybe the question isn't clear, so again, i merged 3 cells in my sheet, but the value of the merged cells resides only in the first cell. I want that each of the cells must have the same value yet be displayed as one merged cell.

excel - How to keep value of merged cells in each cell

On each page, the surveys are arranged by the total number of points available in each question, in descending order. All of the questions were transcribed from whatever Richard said when he first read the question for the face-off, on the theory that that would be the most likely time for him to read the question on the card verbatim.
