An interpersonal relationship is a strong, deep, or close association or acquaintance between two or more people that may range in duration from brief to enduring. This association may be based on inference, love, solidarity, support, regular business interactions, or some other type of social connection or commitment. Interpersonal relationships thrive through equitable and reciprocal ...

Frequently Asked Questions about Service Animals and - ADA

Personal life is the course of an individual's life, especially when viewed as the sum of personal choices contributing to one's personal identity.. In ancient past, most people's time was limited by the need to meet necessities such as food and shelter and there was not much leisure time. People identified with their social role in their community, and engaged in jobs based on necessity rather ...

Despite evidence that connecting people to relevant wellbeing-related resources brings therapeutic benefit, there is limited understanding, in the context of mental health recovery, of the potential value and contribution of pet ownership to personal support networks for self-management. This study aimed to explore the role of pets in the support and management activities in the personal ...
