Primary data, including the amount and type of microwave materials and packaging, as well as a detailed description of the manufacturing process, have been obtained from a main microwave supplier.

Environmental assessment of microwaves and the effect of

The increase in calcination temperature accentuated the sharpness and narrowness of the XRD peaks with greater intensity (). This is indicative of the fact that, due to particle size expansion, the crystalline behaviour of CdSe nanoparticles arising from the pre-eminence of the crystalline phase was the reason for the observed intensification.
