The eight Standards for Mathematical Practice are an important component of the mathematics standards for each grade and course, K–12. The Standards for Mathematical Practice describe the varieties of expertise, habits of minds, and productive dispositions that educators seek to develop in all students.

My passion is to create math resources that will help equip students with the tools to be successful learners in the classroom and beyond. My goal here at TpT is to help teachers save time in developing resources for their classrooms and focus more on what they do BEST – that is to teach, guide, mentor, and inspire kids.

During the Golden Age of Islam, especially during the 9th and 10th centuries, mathematics saw many important innovations building on Greek mathematics. The most notable achievement of Islamic mathematics was the development of algebra. Other notable achievements of the Islamic period are advances in spherical trigonometry and the addition of the decimal point to the Arabic numeral system.
