Grade 1 Forces and Motion. The student will investigate the effects of force on the movement of objects. D. Observe and describe how the movement of an object can be changed (e.g., push/pull, fast/slow).

Science Online Force - Jefferson County Public Schools

FORCES . A force is any push or pull that causes an object to move, stop, or change speed or direction.; The greater the force, the greater the change in motion will be. The more massive an object, the less effect a given force will have on the object.; Unless acted on by a force, objects in motion tend to stay in motion and objects at rest remain at rest.

Education in India is provided by public schools and private schools, controlled and funded by three levels: central, state and local. Under various articles of the Indian Constitution, free and compulsory education is provided as a fundamental right to children between the ages of 6 and 14. The approximate ratio of public schools to private schools in India is 7:5.

Education in India - Wikipedia

"I know that most men, including those at ease with problems of the greatest complexity, can seldom accept even the simplest and most obvious truth if it be such as would oblige them to admit the falsity of conclusions which they have delighted in explaining to colleagues, which they have proudly taught to others, and which they have woven, thread by thread, into the fabric of their lives."

This is a list of atheists in science and technology. Persons listed are individuals who have publicly identified themselves as atheists or have been historically known to be atheists, and whose atheism is relevant to their notable activities or public life. A mere statement by a person that he or she does not believe in God does not suffice.
