Control, or controlling, is one of the managerial functions like planning, organizing, staffing and directing. It is an important function because it helps to check the errors and to take the corrective action so that deviation from standards are minimized and stated goals of the organization are achieved in a desired manner.

1.. Why study management control systems as a package?The idea of management control systems (MCS) operating as a package 1 has existed for over 30 years (Otley, 1980) and there have been regular calls to study the phenomenon (Chenhall, 2003, Dent, 1990, Fisher, 1998, Flamholtz et al., 1985, Otley, 1980).Despite this there has been little explicit theorizing or empirical research on the topic ...

A document management system (DMS) is a system (based on computer programs in the case of the management of digital documents) used to track, manage and store documents and reduce paper. Most are capable of keeping a record of the various versions created and modified by different users (history tracking). The term has some overlap with the concepts of content management systems.
