The ability to generate PDFs as part of a business process is a common one – mainly driven by compliance. A common way to do this is to create a HTML file and then convert that to PDF. In Microsoft Flow, there has been options for doing this for a while now. For a start, there are two 3rd party ...

Managing Stage Boundaries is one of seven processes that make up PRINCE2, a systematic approach to project management developed by the UK's Office of Government Commerce and used widely in UK government and industry. The fundamental principle of Managing Stage Boundaries (SB) is to ensure that, at the end of each stage, the project stays focused on delivering business benefit.
