

occupational science for occupational pdf

Occupational science is a discipline in the social and behavioral sciences dedicated to the study of humans as "doers" or "occupational beings". As used here, the term "occupation" refers to the goal-directed activities that characterize daily human life as well as the characteristics and patterns of purposeful activity that occur over lifetimes as these affect health and well-being.

Occupational science - Wikipedia

Occupational therapy (OT) is the use of assessment and intervention to develop, recover, or maintain the meaningful activities, or occupations, of individuals, groups, or communities. It is an allied health profession performed by occupational therapists and Occupational Therapy Assistants. OTs often work with people with mental health problems, disabilities, injuries, or impairments.

Occupational therapy - Wikipedia
