Although there are various walking paths up to the top - see map here - I parked my car at the Red Hill carpark (opposite 67 Mugga Way) and layered myself up in thermals for the brisk, early morning walk. Although the temperature was only hovering above zero on my winter jaunt, I soon warmed up on the first uphill mission up to the summit...

Of the various modes of oscillation, our main interest is the first antisymmetric mode. This is because of two reasons: the first antisymmetric mode involves the largest amount of liquid mass movement, and as we will see in the following section, its frequency corresponds to the driving frequency (at least approximately).
